

Congratulations on the purchase of your state-of-the-art Viper SmartStart system. Reading this user's guide prior to using your system will get you off to a quick and smooth start.

Start Here

Before you can start using your system, the following steps must be performed:

1. Download the free SmartStart application to your smartphone from the iTunes App Store, BlackBerry App World or Android Market site depending on which brand you own. Links to download BlackBerry and Android apps are also available at www.viper.com/SmartStart
2. Have the SmartStart system installed by your authorized Directed dealer. Once installed and activated by the installer, you will receive an e-mail prompting you to activate your account. Your installer can also provide you with information about your system.
3. After you activate your account, enter your username and password on the Settings tab of the handset app to activate your SmartStart app.
4. Once you have completed the log-in process on your smartphone, you can begin using your app to control your vehicle(s). From the Car screen, select the vehicle you wish to send commands to.

Commands at a Glance

System Commands		Description
	Lock	Select this icon to lock the vehicle. When a confirmation message is received, select it to clear.
	Unlock	Select this icon to unlock the vehicle. When a confirmation message is received, select it to clear.
	Smart Start	Select this icon to remote start* your vehicle. When a confirmation message is received, select it to clear. The vehicle remote starts and stays running for the programmed run time*. Select this icon again to turn off the engine during the run time.
	Trunk	Select this icon to open trunk. A dialog box will open, asking you to confirm you want to open the trunk. Select "Yes" to confirm, or "No" to cancel the request. If you selected "Yes", select again to clear the confirmation message when it pops up.
	Panic	Select this icon to activate panic mode for 30 seconds. Select again during this time to turn off. This feature is used to attract attention if in a threatened position.

* See your Remote Start system user's guide or installer for important information about starting a manual transmission vehicle and how long the engine will run when remote started.

Your vehicle responds exactly the same, with audible and visual confirmations, for both Smartstart and remote control commands.

Menu Bar and Screens

Menu Bar	Description
	Home This screen is the default screen for direct access to all your remote commands. Select any command on the Home screen to perform it.
	Alerts This screen provides notifications from the system. These notifications are indicated by a red circle above the Alerts icon which also indicates the number of uncleared notifications received. These notifications can be in the form of alarms, communication issues or updates to your service plan. The available Alerts may vary depending on the type of system installed in your vehicle. Note: Alerts may not be functional, depending on your app version or installed system.
	Cars This screen allows you to control multiple vehicles if you have a security/remote start system installed in more than one vehicle.
	Settings From this screen you can control your SmartStart login.

Please visit www.viper.com/SmartStart for the latest updates and information about your SmartStart system.

Note: The amount of time it takes for your vehicle to respond to a command can be affected by cellular coverage or network congestion.

Note: Your SmartStart module automatically checks for updates once every 24 hours. During updates, system operation is disrupted for approximately one minute.
